

# Global Citizenship & My Faith

Tuesday 14th October 2014, 19:00 – 21:00  
Seidengasse 28, 1070 Wien

The role of religions in a pluralistic Europe and a globalized world causes heated debates these days. In a **World Café** setting we will explore

**How does your faith help or hinder your engagement with people of other cultures and religions?**  
**How does your faith inform your sense of responsibility in the global community?**

Young representatives of Judaism, Christianity, Islam and inter-faith initiatives will give kick-off talks. After the World Café a light buffet will be provided. We are looking forward to lively discussions.
